My Dell Studio 15 hard disk problem
Posted by delladmin - 29 Dec 2016 05:10

_____

Resetting the System Setup (BIOS)

to its Default Settings

Option 1:

Reboot the computer.

When prompted during POST, press the key to enter the setup screen.

On the System Setup screen, press the key to move to the Exit menu.

Press the key until Load Optimized Defaults is highlighted.

Press the key on Yes to Load Optimized Defaults and restart the computer.

Option 2:

Reboot the computer.

When prompted during POST, press the key to enter the setup screen.

On the System Setup screen, press the key.

Press the key on Yes to Load Optimized Defaults and restart the computer.
