

My dell laptop doesn't turn on

Posted by delladmin - 30 Dec 2016 04:57

hi,

- 1.Disconnect any external peripherals (flash drives, printers, external hard drives) from the computer.
- 2.Then remove the adapter.
- 3.Remove the battery.
- 4.Press and hold the power button for 10 seconds.
- 5.Reconnect the battery and the adapter.
