

XPS 15z cannot run PES 2012

Posted by admin - 26 Jun 2012 08:17

now im using dell xps 15z with intel i7 processor and equip with NVIDIA® GeForce® GT 525M 2GB graphics. however, i cannot play my PES 2012 as it said my vram is only 64MB but actually is 2GB. anyone can help me to solve this?
