Product Description

Charge Your Dell Laptop

Replace your old Dell Laptop Adapter with a more efficient one. The Dell Laptop 90W AC Adapter has an input voltage range of 110 V to 240 V that makes it a universally appropriate charger for your Dell Laptop no matter which part of the world you live in. You can travel far and wide to different countries or use the AC Adapter to recharge your Dell Laptop in flights.

Cost Effective Adapter

With a 90 W power input, this AC Adapter is an energy-saving device. It helps you conserve your power and cut down your cost. Delivering you efficiency and reliable performance of battery recharging for your Dell Laptop, the AC Adapter ensures that it does not burden your pocket.

Long Cable Wire

You can use this AC Adapter to charge your Dell Laptop from the far end of your room. It has a 1.8 m cable wire that allows you the comfort and liberty of recharging your Laptop from a distance for enhanced flexibility with your work.

Dependable Performance

The Dell Laptop 90W AC Adapter has been tested and assessed for its reliable efficiency. It effectively charges your Dell Laptop while safeguarding it from voltage leaks or incorrect voltage. Even internal overheating of the device is prevented by the AC Adapter. Compact and light, the 24.6 x 19.2 x 7.2 cm charger with 540 gm weight is portable.

Gives You Comfort

You can detach the 1.8 m cable from the AC Adapter to fold the wire suitably. The cable wire has a loop and hook rubber strap to tie-up the folds of this wire together for preventing entangles. Carry your Dell Laptop along with this AC Adapter where you like and it provides you easy and unfailing charging.

From the Manufacturer

Dell Laptop 90W AC Adapter

The Dell Laptop 90W AC Adapter is the ideal travel companion for your Dell laptop. You do not have to worry about the 110 V usage in the USA or the 220 V usage in Europe because this adapter has an input voltage range of 110 V to 240 V. It also draws minimal power of 90 W thus saving electricity and cutting down your bills.

You need not sit next to a plug point while the laptop is charging because this adapter comes along with a 1.8 m long power cord. So, just sit at a comfortable place and do your work, and let the laptop charge. It is very convenient to carry, as well. You can separate the power cord from the adapter and fold it properly. There is also a loop and hook rubber strap attached to the adapter that can wrap the cord and keep it intact and does not let it fall off. Thus, the adapter along with its cord will fit easily in your bag without occupying much space.

The Dell Laptop 90 W AC Adapter is a well tested product keeping in mind various specs
